Professional Summary

Senior Windows System Administrator with 9+ years of experience managing enterprise-scale, mission-critical infrastructure. Expertise in Windows Server, VMware, Active Directory, and production support operations. Proven track record in handling P1/P2 incidents, performing root cause analysis (RCA), automating processes using PowerShell, and collaborating with global stakeholders. Strong focus on system reliability, security compliance, and continuous improvement in high-availability environments.

Technical Skills

- **Operating Systems:** Windows Server 2016, 2019, 2022 (Core & GUI)
- **Infrastructure:** Active Directory, Group Policy, DNS, DHCP, DFS
- **Virtualization:** VMware vCenter, ESXi, VM provisioning & lifecycle management
- **Storage & Backup:** Infinidat, NetApp (exposure), Veeam, Veritas, Symantec Backup Exec
- **Monitoring Tools:** SolarWinds, SCOM, Icinga, HPBSM, HPNNMi
- **Automation & Scripting:** PowerShell (automation & task optimization), Jenkins
- **Networking:** TCP/IP, Routing, Switching, Firewall, ACL, ICMP, Telnet
- **Protocols:** FTP, SFTP, FTPS
- **Messaging Systems:** IBM MQ, RabbitMQ, FIX
- **Tools:** BigFix, N-Able, ServiceNow, Jira, BMC Remedy
- **Other Exposure:** IIS, SMTP, EFS, NFS (basic)

Professional Experience

Senior System Administrator | Fidelity Information Services (FIS), Pune | Aug 2022 – Present

- Administer and maintain **Windows Server environments (2016, 2019, 2022 Core)** across enterprise infrastructure
- Provision and manage **VMs in VMware environments (vCenter, ESXi)** including upgrades and troubleshooting
- Perform **patching, vulnerability remediation, and compliance activities** using BigFix and N-Able
- Lead **P1/P2 production incident management**, performing detailed **root cause analysis (RCA)** and implementing preventive measures
- Support **mission-critical, high-availability systems** with strict SLA adherence
- Coordinate with **business stakeholders and global teams** for incident resolution, change execution, and service improvements
- Collaborate with **datacenter vendors** for hardware failures, ESXi host issues, and infrastructure-

level incidents

- Automate administrative tasks using **PowerShell**, reducing manual effort by **30%+**
- Manage **Active Directory, DNS, DHCP, Group Policy, and DFS services**
- Built and maintained Windows server infrastructure for middleware applications, performing **IBM MQ** & **Rabbit MQ** upgrades, migrations, patching, and troubleshooting across production environments.
- Monitor infrastructure health using **SolarWinds and enterprise monitoring tools**
- Lead **weekly vulnerability reviews** and coordinate remediation with security teams
- Manage backup and disaster recovery operations using **Infinidat storage systems**
- Work in **Agile-based environments**, supporting release cycles and operational improvements

Technical Support Lead | Fidelity Information Services (FIS), Pune | Nov 2019 – Aug 2022

- Managed and upgraded **SolarWinds monitoring platform** and security configurations
- Handled **production incidents and outages**, ensuring timely resolution and communication
- Configured and maintained **IBM MQ and RabbitMQ environments**, including SSL and channel setup
- Supported **Jenkins-based deployments** and CI/CD pipelines
- Managed **FIX connectivity across brokers and vendors** during trading hours
- Led **disaster recovery (DR) testing and failover activities**
- Troubleshot application, network, and infrastructure issues across environments
- Created operational documentation and knowledge base articles
- Coordinated with cross-functional teams and ensured SLA compliance

Network Engineer (NOC & SOC) | Tech Mahindra (via Softenger & Elit Buzz), Pune | Mar 2018 – Jun 2019

- Monitored network devices using SolarWinds, HPBSM, HPNNMi, and SCOM.
- Managed backup jobs using Symantec Backup Exec, Veritas, NetBackup, and Veeam.
- Created SLA breach analysis and bandwidth utilization reports.
- Handled incident tickets and escalations using HP ServiceNow.
- Supported weekend system upgrades and coordinated technical resources.

NOC Engineer | GTL Limited, Pune | Jan 2016 – Oct 2017

- Live alarm monitoring using OSS tools and customer complaint handling.
- Prepared daily progress, fault, and RCA reports.
- Worked with BMC Remedy for trouble ticketing.
- Managed LAN/WAN connectivity issues including DHCP, DNS, and static IP.
- Provided desktop support and troubleshooting for Windows applications.

Education

MBA (I.T), Savitribai Phule Pune University, Pune, 2019

B.Com (Computer Application), Barkatullah University, Bhopal, 2015

H.S.C, Central Academy School, Jabalpur/M.P. Board, 2010

S.S.C, Central Academy School, Jabalpur/M.P. Board, 2008

Certifications

- Cisco Certified Network Associate (CCNA)

KEY STRENGTHS

- Strong ownership of **production systems and incident management**
- Excellent **problem-solving and troubleshooting skills**
- Effective **stakeholder communication and collaboration**
- Ability to manage **multiple priorities in high-pressure environments**
- Continuous focus on **automation, efficiency, and system reliability**
